

INTRODUCING NEW COCOFRIO PACKAGING

CocoFrio's 500ml tubs have recently undergone an exciting transformation with new packaging being launched across the country. Look out for our delicious range of 8 flavours on the shelves. You can't miss them!

SKIN DEEP BENEFITS OF COCONUT OIL

Coconut oil contains Vitamin E, essential amino acids, and lauric and caprylic acid which help to form part of the barrier function of your skin and help maintain your skin's natural flora. Coconut oil is mostly composed of saturated fats, which are amazing at repairing your skin's natural barrier function (yes saturated fats can actually be a good thing!) and it also helps to keep the moisture in your skin by slowing down evaporation.
