

**PS Soda is an idea born and bottled at cocktail bar PS40.**

**We put the same amount of thought into creating sodas as we do cocktails. Fresh produce, the layering of flavours and progressive techniques makes up a core range that challenges not only what a soda is but also how it can be mixed.**

**YOUR VIRGINS WILL NEVER BE THE SAME.**

**Our lemonade is smoked, our cola is wattled and everything is made fresh by hand. Utilising both local and native ingredients we have created a core and a seasonal range of sodas that forge a new path to mixing drinks, cocktails and non alcoholics.**
