# The Tucker's Natural Tale

The Tucker family has been in the food business, nationally and internationally, for decades, so when we couldn't find what we wanted to eat on the supermarket shelves, we knew we could make our own – adapting our handmade home kitchen recipe. Now we produce award-winning savoury Gourmet Crackers and sweet Dessert Biscuits, Gourmet and Wholegrain Bites, MultiFibre Snacks, Dippers and Fruit Pastes.

.....

We don't want to eat preservatives or artificial flavours – so we don't put them in our products. We also decided to make our products yeast, MSG, GMO and soy free, and as low as possible in salt and sugar as well.

We take pride in evolving with the needs of our customers, refining and developing products to suit the changing needs and lifestyles of people all over the world.

We are an Australian-owned business, buying as many premium local Australian ingredients as possible and making our products in Australia. Supporting other local and Australian businesses is important to us.

The Tucker's Natural ranges of crackers, biscuits and snacks are as tasty, healthy, and Australian as we can make them. They're a little bit about gourmet and a lot about all the stuff real people care about.

That's why Tucker's Natural crackers really are  
naturally better for you.
